

Can you think of an activity or element that would be a big draw for the community to the park space? Is there an amenity that could serve as a focal point at the park? How can we activate the space?

**Pavilion for
multi purpose
use - artist in
residency**

**Tables and
covers from
the rain**

**Farmers
Market**

**Loop
Walk**

**Keep
water for
wildlife,
not boats**

**Activities
appropriate to
pond over
events**

**Rotating art
opportunities**

**Artists in
residence
opportunities**

**Park caters to
lunch time
users, visitors**

**Shallow
draft
electric
boats**

**Wildlife
Watching &
Birdwatching**

**Enhance
trees,
wildlife,
and water**

**Connections
with local
trails**

**Stock
pond with
fish**

How important is the open water aspect of the pond to you?

In time (5-15 years) the pond will eventually become a marsh environment if allowed to go through its natural processes, reducing open water area.

**Native
plants**

**A marsh
would be
great for
birds.**

**Add trees to
improve
overall quality:
cedar,
redwood, etc.**

**Bringing in
new water
from potential
water source
is exciting.**

**Find a
way to
keep the
water**

**Boardwalks =
YES!**

**Connected
walkways
in/out of park
would be
great.**

**Open
water
with an
island**

**Island to
support
waterfowl**

**Improving
water quality
is of primary
importance.**

Given the limited developable park land would you like to see an outdoor event space or environmental learning space or community hall as an amenity to activate the site?

How are neighboring properties draining into pond

Fun lighting would help during dark days and improve perceived safety.

Farmers market in adjacent properties

Fountain to aerate water.

During the week will be utilized by businesses, weekend access would be challenging due to lack of parking if tried to create event space.

No need for event space, city already has other spaces

limit new structures, focus on habitat

Food truck to draw people in

Environmental center could be a partnership opportunity with local science center or other nonprofit.

Potential to become an asset for local businesses

Should create human activity opportunities for the space before a structure is built.

Doesn't make sense to create another outdoor event space.

Opportunities for PV panels on roofs

Lighting is key to keeping park safe

PV Powered fountain for water aeration.

**Does building
brinaia in**

**Floating
lantern
festival**

**If a pavilion what
scale and how much
maintenance would
that require**

Do you see an opportunity to express and celebrate the diverse culture of Tukwila in this park? What activities or amenities should be considered

**Think about the
immigrant
community
influence. Current
and past. Find ways
to celebrate them.**

**Keep
surroundings
as natural as
possible**

**Black River,
environmental
connection**

**Art work -
fountain**

**Storyboards
walk to share
native history,
birdlife etc.**

**Look at
Grandmother's Hill
as example**

**Cultures around the
world have
ceremonies that
involve water -
Japanese floating
boats?**

**Storyboards
throughout
the park.**

**Celebrate
tribal
traditions**

**If a pavilion
what scale or
size and how
much
maintenance**

**More open
space, less
buildings**

**Recognize and
celebrate
immigrant
populations,
current and
past**
